

About RightNow Media

RightNow Media serves 18,000 churches and businesses everyday in 25 countries. Similar to Netflix, our streaming media service allows Christians to access over 15,000 video-based Bible studies from 250 of the top Christian publishers, ministries, and communicators in the country. In addition to distributing video content from other producers, our team has produced many RightNow Media Originals featuring well-known pastors and leaders including Matt Chandler, Jennie Allen, Max Lucado, Francis Chan, David Platt, Eric Mason, Chip Ingram, Louie Giglio, Gary Thomas, Lisa Harper, and others. RightNow Media has videos for small groups, families, students, leadership development, and much more.

As a non-profit organization, we firmly believe the mission of the Church matters. Everything we do is rooted in the belief that the Church—God's people—can have a powerful impact on this world through the power of the gospel. Our team loves the Church.

We value family. We value hard work. We value teams. We value the power of stories.

Job Description :: Product Owner

The Product Owner is responsible for maximizing the value of the software product resulting from the development team. The Product Owner works directly with an assigned scrum team to deliver value to both internal and external stakeholders.

Roles & Responsibilities:

- Conducts interviews, researches technological trends, and analyzes data to gather requirements from stakeholders and provide input to the Chief Product Owner for product roadmaps
- Works with the Chief Product Owner to process and prioritize requests from stakeholders to maximize the efforts of the development teams.
- Develops and defines flows, wireframes, mock-ups, and prototypes alongside the broader product team for communicating new ideas for stakeholder demos
- Upholds the strategic vision cast by the Chief Product Owner to provide clear understanding of the tactical work carried out by the development team.
- Manages Product backlog for assigned team(s) to maximize stakeholder value while balancing the overall strategic vision and intent of the product roadmap
- Works with the development team to write/refine User Stories per collected stakeholder requirements, communicate the business value delivered, set sprint goal, and prioritize the backlog
- Collaborates with the Scrum Master to help insulate the development team from scope creep, impediments and distractions.
- Maintains a deep working knowledge of the software products and business processes to help make informed decisions.

Continued on Page 2

- Serves as both a direct resource and connection point for the business stakeholders and development team
- Leads UAT sessions with business users to measure feature fit and maintain quality checks on new development
- Orchestrates user training and feedback sessions for new applications

Skills Required:

- BA in Computer Science, Management of Information Systems, Engineering or similar relevant field.
- In-depth knowledge of Agile process and principles
- Outstanding communication, presentation and leadership skills
- Excellent organizational and time management skills
- Sharp analytical and problem-solving skills
- Creative thinker with a vision
- Attention to details
